

URAD

Clean, nourish, protect and shine in a single, 30-second step, even without buffing! It works equally well on jackets, shoes or furniture, and URAD leaves no oily or sticky residue. It is formulated from entirely natural and biodegradable ingredients.

Conclusion:

- Recommended for cowhide or **non-porous** leather
- Revives colour
- Restores damaged or dried out leather
- Application of Tenderly after URAD may be necessary for some leathers to promote more rapid drying
- Use very small amounts only

IMPORTANT

*All our products have been subjected to exhaustive testing. However, since every leather is unique, both in terms of the raw materials used and the tanning methods and products employed in its preparation, we recommend that a **colour resistance test** be made on a less visible part of the article (such as the inside back of a jacket) **prior** to the application of any leather care product.*

FOR LEATHER CLOTHING

Dynamique 9 Inc.

WWW.URAD.COM

TENDERLY ◀◆◆◆◆◆▶

*Softener and protector for porous or delicate leather. Some leather items cannot tolerate oils, waxes or any other product normally used for leather care. Pale coloured kid gloves, jackets or pants that are very much in style these days, are perfect examples. These leather products must nevertheless be moisturized to maintain their softness and suppleness, and that's the main purpose of **TENDERLY**.*

Conclusion:

- 1ST product to recommend for articles of clothing
- Renders leather soft to the touch
- Can be used on any kind of burnished cowhide

AQUILA ◀◆◆◆◆◆▶

Shampoo created to resolve the problem created by regular cleaning of delicate or pale-coloured leather. Use Aquila to clean jackets, handbags, shoes, leather, suede or even fabric covered sofas.

Conclusion:

- 2nd product to recommend for articles of clothing
- When used regularly, it **prevents stains** due to hair or body oils
- Can be used on any type of leather, suede or Nubuck

GRASSO ◀◆◆◆◆◆▶

The best leather moisturizer, it penetrates quickly and deeply, leaving a surface that is neither oily nor sticky. Replaces beaver, seal or mink oil, and softens leather in a remarkable way (even new saddles or baseball gloves). Natural waterproofing agent.

Conclusion:

- Recommended for **darker coloured** leather garments
- Restores damaged or dried out leather
- Contains no wax and thus creates no shine
